To whom this may concern

Re: - Recess Cleaning Ltd.

Sam Manik and his team at Recess Cleaning Ltd have been providing a deep clean / sparkle clean of our new car showroom / workshop facilities for the last 5 years.

Main Contractors are supposed to clean the buildings at Practical Completion; but I have never found this totally satisfactory and employ Recess Cleaning Ltd. direct to clean the building to a very high standard ready for occupation by the staff and customers.

The key to contract cleaning is good on-site management and directly employed staff who have a pride in their work and a good knowledge of cleaning products and materials that are being cleaned.

Recess Cleaning Ltd. has all the above and more, I would strongly recommend them.

Regards
